

TIA and Fayette County

August 19, 2011

The Transportation Investment Act of 2010 created the opportunity for residents to vote on a one-cent sales tax to support transportation improvements throughout a ten-county Atlanta Region. The Atlanta Regional Roundtable, which consists of county commissioners and mayors, are working throughout the summer and fall of 2011 to develop a list of regionally significant, priority transportation projects that could be partially or fully funded with the sales tax collected over a ten-year period.

The list of projects will be finalized in October 2011 and will include transit, road, safety, pedestrian, and bike projects. A draft list was developed by an Executive Committee in August, 2011 and is currently being reviewed by voters, county and city staff and elected officials.

Forecast TIA Revenues in 2011 Dollars

10-County Region	100% Baseline Value (2013-2022)	\$7,233,732,000
	85% Baseline Value (2013-2022)	\$6,140,172,000

The 85 percent Baseline value represents the amount of money available for the final (i.e., constrained) list of projects. The remaining 15 percent will be allocated to the ten counties for local, discretionary, transportation projects. Fayette County’s contribution to the TIA revenues is estimated to be \$190,238,500 over the ten-year period.
